

## The whole year through

We offer turn–key solution for marine interior outfitting concepts including:

- wall/ceiling insulation incl. fixing of pins
- wall and ceiling panels – delivery and assembly
  - floor panels/deck covering
- delivery and assembly of sanitary blocks including systems connections
  - prefabrication and assembly of light metal furniture
- covering the outer surfaces with wooden floors (teak, iroko)
  - production of marine furniture and its assembly on board
- electrical (incl. lighting), water and sanitary system installation in outfitting works areas
  - HVAC system in outfitting works areas – assembly

Insulation

Assembly of sanitary blocks including systems connections

Marine furniture

Assembly of metal furniture (excluding its production)

Our core services are based on a “turn-key” manner and can be carried out on board of any type of seagoing vessel, offshore vessel, inland barge, tugboat, fishing vessel, motor and sail yachts, etc.

We are prepared to carry out our services on new ships being under construction and also on board of ships in the repair shipyards.

ACTIV offers a wide range of repair works, modifications or conversions, which can be performed on any type of vessel moored at a harbor/shipyard or (subject to conditions) on board a vessel during short range sails in between the nearest harbors. ACTIV works in a close cooperation with a professional Design Office, which allows considerable flexibility in terms of adapting the existing technical documentation or concept design into workshop standards.

To ensure the highest standard of services, ACTIV employs mobile teams of highly skilled outfitting staff whose work is coordinated with containerized logistics of materials and devices.

Using movable tasks supported by our fleet of workshop, stores and social containers, ACTIV is able to carry out their services also abroad.

Thanks to, cooperation with numerous leading marine furniture and interior equipment producers, supplemented by using the latest technological solutions and skilled staff, ACTIV is able to provide potential Clients with a comprehensive and complementary offer and granting the highest standard of executed work.
